SUNSPOT POEMS**SOME LIKE IT HOT!**

Did you ever learn in school
 That sunspots are really cool?
 They are!
 The Sun is hot
 But not that spot
 Or at least not as hot as the burning Sun.
 Everyday, scientists are having fun
 Counting those sunspots,
 Watching solar flares run,
 Waiting for the time when the spots are none.
 Studying the star.
 Studying the spots.
 Seeing how hot each spot has got.
 They have really learned a lot!

Poems are fun to read, write and find.
 Have you ever found a poem? It does not
 have to rhyme. Look in the book, *Our Very
 Own Star: the Sun*, for ten words that
 seem interesting, fun, or crazy. Put
 them in the blanks in the Sun. Read it
 to a friend.
